Subject: Case No. 16-11767-CMA

Honorable Christopher M. Alston

I am responding to the notice stating the amended hearing regarding Northwest Territorial Mint LLC. My response to the selling any part of the company leads me to believe this filing is a rouse. Being notified that Northwest Territorial Mint filed for Chapter 11 Bankruptcy (reorganization) and then before the hearing is seeking court approval to sell the equipment used to produce the merchandise required to fill the outstanding orders says to me they are trying to use the court to steal moneys received in good faith. How can Northwest Territory Mint reorganize and complete the contracts with customers such as myself when there is no machinery for production?

I have been with the understanding that the courts are in place to protect consumers. Would the proceeds from this sale be used to pay back the creditors? I therefore APPOSE the sale to be brought before the Court on May 26, 2016.

Roger Bailey
