#### **UST-14, SUMMARY OF DEPOSITS & DISBURSEMENTS**

**INSTRUCTIONS:** <u>BEFORE COMPLETING THIS PAGE</u>, prepare a UST-14 CONTINUATION SHEET (see next page) for each bank account or other source of the debtor's funds. The deposit and disbursement total from each CONTINUATION SHEET will be used to complete this SUMMARY.

The debtor is responsible for providing an accurate <u>monthly</u> disbursement total for the purpose of calculating its obligation pursuant to 28 U.S.C. § 1930 (a)(6) to pay statutory fees to the United States Trustee. The disbursement total encompasses all payments made by the bankruptcy estate during the reporting month, whether made directly by the debtor or by another party for the debtor. It includes checks written and cash payments for inventory and equipment purchases, payroll and related taxes and expenses, other operating costs, and debt reduction. It also includes payments made pursuant to joint check arrangements and those resulting from a sale or liquidation of the debtor's assets. The only transactions normally excluded from the disbursement total are transfers within the same reporting month between multiple debtor accounts.

A fee payment is due within 30 days after the end of each calendar quarter, or on **April 30**, **July 31**, **October 31**, and **January 31**, respectively. Since the amount billed is an estimate, the debtor is responsible for paying the correct statutory fee based on its actual disbursements for the <u>calendar quarter</u>, or portion thereof the debtor was in Chapter 11. Failure to pay statutory fees to the United States Trustee is cause for conversion or dismissal of the case. A copy of the statutory fee schedule may be found attached to this report. If you have questions computing the disbursement total, contact the Bankruptcy Analyst assigned to your case at (206) 553-2000.

#### Significant Events and Case Progress February 2020:

The company experienced an operating loss in February of \$40 compared with an operating profit of \$73 in January.

The Trustee holds a judgment against Diane Erdmann. Ms. Erdmann filed for personal bankruptcy protection. The Trustee has agreed to a settlement with Ms. Erdmann's bankruptcy trustee, Ms. Kathryn Ellis (the "Erdmann Trustee") regarding the ownership of certain assets seized in 2016 by the King County Sheriff at the home of Ross Hansen and Diane Erdmann and other issues which was approved by the Court. Under the settlement, the Trustee was authorized to liquidate the seized inventory and split the proceeds with the Erdmann Trustee. The Trustee liquidated the seized inventory in November and distributed the proceeds to the Erdmann Trustee in December. The settlement also provides for the assignment of certain claims from the NWTM estate to the Erdmann Trustee with a sharing by the two estates of the proceeds of those claims. The Erdmann Trustee has responsibility for the administration of the assigned claims and is in the process of pursuing them.

Trustee will continue to liquidate the estate's assets in Chapter 11 and distribute the liquidation proceeds subject to court order. The Trustee does not anticipate distributions to the General Unsecured Creditors.

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance.

Explanation of Finance Charge: Your Finance Charge attributable to interest (hereinafter referred to as interest) is computed using the Average Daily Balance method.

Average Daily Balance method (Balance Subject to Interest Rate): Your interest is computed on all purchases and cash advances (collectively "advances") from the date each advance is posted until we receive payment in full (there is no grace period). We figure the interest on your line of credit by multiplying the daily periodic rate by the "Average Daily Balance" of your line of credit (including current transactions) and multiplying by the number of days in the billing cycle. To get the Average Daily Balance we take the beginning balance of your line of credit each day, add any new advances or debits, and subtract any payments and credits, any non-financed fees and unpaid interest. This gives us the daily balance. Then we add up all of your daily balances in the billing cycle and divide this total by the number of days in the billing cycle to get your Average Daily Balance.
